Supervisory Patent Examiner, Art Unit 2183

(Applicant/Applicant's Representative Signature – if appropriate)

Continuation of Substance of Interview including description of the general nature of what was discussed: Examiner conveyed to applicant's representative that he believed that the claims would be in condition for allowance if the independent claim were amended in a particular way to overcome the current rejection and possible future rejections which incorporated additional prior art, and if various further minor claim amendments were made. Examiner cited various portions of the instant specification as the basis for the proposed change to the independent claim, including page 20, lines 27-28, 49/29-31, 20/33, and 53/18-30. Applicant's representative conveyed his intention of contacting the applicant regarding the proposed changes. On July 9, 2010, Applicant's representative conveyed authorization for a set of amendments similar to those proposed and which examiner determined would likewise overcome the prior art of record. Applicant's representative later conveyed authorization for very minor formal changes to the claims on July 11, 2010.
